

Have you ever thought about caring for children as a profession?

WE CAN HELP!

As a licensed family child care provider, you would run your own business, set your own hours and fees, and use your skills to provide a service to the community's families and children. There is a great need for quality, professional child care providers right now!

What can your local Child Care Aware team do for you?

- Assistance with licensing requirements and application.
- Assistance with training requirements and availability.
- Information on available grants that provide equipment, toys and improvements to your program.
- Information on food programs and scholarship programs.
- Coaching sessions that fit your schedule.
